TERMS AND CONDITIONS:

1. The Tender for **“Procurement of LED Microscope.”** will be based on Technical Evaluation of Technical bids & Financial Evaluation of Financial Bids to be carried out by the Tender Committee approved by the Mission Director, National Health Mission, Meghalaya.
2. The **“Committee for Technical & Financial Evaluation”** National Health Mission reserves the right to accept or reject any Tender or any part of the Tender without assigning any reasons thereof.
3. No conditional tender shall be accepted. The committee reserves the right to accept or reject any tender without assigning any reason thereof.
4. Price should be quoted as per company’s price list which should also be supported by the company pricelist and dealership certificate duly attested.
5. The bid shall remain valid for a period of **Nine Months** from the date of issue of NIT. The bid valid for a shorter period shall be rejected by the Mission Director, National Health Mission, Meghalaya as non responsive. The period can be extended mutually.
6. **The Intending Tenderer shall have to deposit an amount of Rs. 1,00,000/- (Rupees One Lakhs only) for LED Microscope as a token of Earnest Money Deposit (EMD) in the form of Demand Draft from any Scheduled or Commercial Bank carrying no form of interest on the deposit from the Scheduled / Commercial bank in favour of Mission Director, National Health Mission, Meghalaya payable at Shillong.**
7. A bid not accompanied by EMD of the stated amount shall be rejected by the Mission Director, NHM, Meghalaya as non responsive.
8. The EMD of the successful Tenderer shall be deposited in the Security Deposit Account of National Health Mission, Meghalaya. This is retained as a partial security deposit until the period of work / contract maybe found satisfactorily completed. The EMD may be refunded on receipt of a written application addressed to the Mission Director, NHM, Meghalaya. Refund of EMD shall not carry any interest component.
9. The EMD shall be refunded to unsuccessful bidders within a period of eight (8) weeks from the date of execution of the agreement with the successful bidder without any interest or claim whatsoever and with prior notice by the committee of their non selection.
10. No bidder will be allowed at any time, on any ground whatsoever to claim revision of or modification in the rates quoted by them. The representation of the bidder, that the computation, typographical or clerical error etc has been committed in the bid, and a request for revision. Such a plea shall not be entertained after opening of the bid.
11. Unless otherwise specified, all supporting documents submitted and asked for under the NIT must be duly attested by a Gazetted Officers / Notary.

OFFICE OF THE STATE TUBERCULOSIS OFFICER NTEP, MEGHALAYA

State Tuberculosis Office, Reid Provincial Chest Hospital Compound, Jhalupara,
Shillong-793002, Ph-0364-2546005
Email: stomg@rntcp.org

12. At any time prior to the submission of Bids, the Tender Inviting Authority may, for any reason whatsoever, whether on his own initiative or in response to a clarification requested by a prospective bidder (s), modify the Tender Document by an act of amendment thereafter referred to as an Addendum for Addition & Corrigendum for.
13. Correction. All prospective bidder(s) who have received the bid document will be notified of the Addendum/ Corrigendum and that will be binding on them. In order to provide reasonable time to take the amendment into account, the Tender Inviting Authority may at its discretion extend the date of the time for submission of Bids.
13. If found that the Successful Bidder is incompetent to provide the products/ service requested, in such a situation, the proposal may be reviewed for award of the contract to the next qualifying bidder or go for a fresh bid depending on the circumstances. No form of compensation shall be payable in any form whatsoever to the forfeited bidder. In case it is decided to go for the next qualifying bidder, negotiation may be considered to bring down their price nearer to the originally Evaluated or Lower bidder in consideration to the equipments to be supplied.
14. Wherever relevant for accessories from any third party sources apart from the bidder the original manufacturer's name and brand must be specified in the bid document supported by adequate technical detailing and explanation. The customer may request for specific additional technical information if it wishes so and in all such cases the bidder must provide the requested details failing to which the bid will be treated as technically non-responsive.
15. The bidder must indicate in their bid the supply and manufacturing sources for the LED Microscope the bidder must enclosed detailed product brochures.
16. All the necessary quality standard certificates for the medical equipments and other devices as applicable as per the tender specifications must be enclosed in the bid, without which the bid will be treated as technically non-responsive.
17. All bidders must enclose complete documentary data to indicate that the products offered by them, is in compliance with the specifications.
18. **Guarantee / Warrantee** period and facility after sales and service should be indicated. The bidders are required to provide the warranty as per specification with their terms and conditions for the whole vehicle supplied in with full detail and period of coverage.
19. Undertaking on plain paper duly signed and sealed to the effect that the supply will be carried out by the bidder himself/ herself.
20. Bidder needs to furnish in writing an undertaking that they would be able to undertake **Service at Call**.
21. Bidder/OEM needs to furnish of all service engineers along with their Mobile numbers, Latest ISO certificate (if any), Copy of Manufacturing License (if any)
22. Dealership Certificate (if worked through the authorized dealer), Catalogs of products being listed.
23. Manufacturer's Authorization (The letter of authorization tender specific should be on the letter head of the manufacturing firm and should be sealed and signed by a person competent).

Annexure I: Format for

Technical cum Compliance Specification

1. LED MICROSCOPE:

SL	Name	Technical Specs quoted by bidder	Deviation if any
	Description:		
1	Body	Sturdy, stable, base body with focus adjustment devices positioned for a prolonged comfortable use and easy, precise movement. The body shall be epoxy powder coated durable metal, heat treated and resistant to standard reagents used for staining, organic solvents used for cleaning of lenses and disinfectants.	
2	Optical system	All optical parts including objectives, eye pieces, lenses, prisms, should have anti-reflective and anti- fungal coating.	
3	Binocular eyepiece	Binocular eyepiece, preferably with a tube flexible for use in an upper and lower position to ease the use by different lab workers, an ergonomic viewing angle of 30°, a tube rotatable through 360° at interpupillary distance ranging from at least 48–75 mm, maintaining parfocality	
4	Eyepieces	Paired, high-quality, achromatic, wide field, 10 x magnifications. The eyepieces should have a minimum field number of 18, an eyepiece diopter adjustment on at least one eyepiece and no pointer.	
5	Objectives	All objectives should be plan achromat, infinity corrected and usable without cover glass. 20x and 40x objectives should be usable with the fluorescence. Objectives <ul style="list-style-type: none"> - 10x NA: 0.25 Essential - 20x NA: 0.40 essential - 40x dry: essential for confirmation - 100x NA: 1.25, for oil immersion (essential) - All objectives should be para focal 	
6	Marking and identification	All objectives should be engraved with the following information: <ul style="list-style-type: none"> - name or code of the manufacturer - Magnification and numerical aperture (NA).

NTEP, MEGHALAYA**

**State Tuberculosis Office, Reid Provincial Chest Hospital Compound, Jhalupara,
Shillong-793002, Ph-0364-2546005**

Email: stomg@rntcp.org

7	Nose piece	Backward/outward tilted revolving nose piece to accommodate at least 4 objectives, any ports not covered by an objective should be closed with dust proof metallic or hard plastic screw caps. The nose piece should be provided with ribbed grip for easy rotation on a precision ball bearing mechanism for smooth and accurate alignment with precise click stops. In changing from one objective to another or reintroducing the same objective by rotation, the object in the centre of the field should not appear displaced by more than 0.04mm in the object plane in any direction.		
8	Stage	Rectangular built in, uniformly horizontal, mechanical stage. The stage should be provided with a spring-loaded slide holder for safe and exact positioning of the slide. The construction should allow a smooth travel in transverse directions. Travel range of at least 75 x 30 mm (w x d) with Vernier's scale, fatigue-proof position of knobs for movement, right or left-hand operation.		
9	Condenser	Sub stage condenser of Abbe type, 0.9/1.25, with rack and pinion arrangement incorporating an iris diaphragm.		
10	Substage illuminator	Substage illuminator for brightfield microscopy, with possibility to switch easily between FM and brightfield without tools with: • built in white LED source (3 W, 6 V) with light source life time >30,000 hours. The system should provide a light intensity adjustment device, and an easily accessible on/off switch. The lamp should be provided with a lamp socket for easy replacement of the bulb. The housing for the light source should be designed to prevent dispersion of light and mounted not to heat up the body of the microscope		
11	Fluorescence illumination	Fluorescence illumination, depending on microscope type may be: - a built-in LED blue light source with maximum wavelength close to 450 nm for reflected light examination or - an LED blue light source attachment with maximum wavelength close to 450 nm that is fitted into a special objective for reflected light examination or - an LED blue light source attachment with maximum wavelength close to 450 nm that is fitted onto the illumination system of a standard microscope and sliding barrier 510 nm long-pass filter for transmitted light examination.

**State Tuberculosis Office, Reid Provincial Chest Hospital Compound, Jhalupara,
Shillong-793002, Ph-0364-2546005**

Email: stomg@rntcp.org

12	Focusing knobs	Co-axial coarse and fine focusing knobs capable of smooth fine focusing movement over the full range of coarse travel. The fine focusing movement should have a sensitivity of two microns or less (finer) with 200-500 μm per rotation over the entire coarse focusing range. Focusing knobs should be at both sides. A focusing stop safety arrangement/mechanism should be provided to avoid slide breakage, as well as a total range of at least 15 mm. All metallic parts of the microscope to be corrosion proof, acid proof and stain proof		
13	Supply voltage	220-250, AC, 50 Hz Voltage and plugs shall be adapted to those used inside the country. The line cord / Power cord supplied with the equipment shall be of acceptable durability, length, and current carrying capacity complying with Indian Standards.		
14	Power consumption:	Will depend on the illumination equipment (max. 30 W) Conform to electrical safety IEC-60601-1, UL 61010-1, EN 61010-1. Power supply, wide range input with 6 V converter. Protection class (in accordance with EN 60529). Designed not to interfere with circuit radio (in accordance with EN 55014).		
15	Manufacturer's certificate	The manufacturer must have a CE certification for quality management system and a type-test certificate of relevant optical and mechanical tests.		
16	Quality and safety standards	Met by the product must be listed.		
17	Battery pack Essential:	Rechargeable battery pack (6 V DC) of minimum two hours with charger working with 220– 250 V AC, 50 Hz supply, for online and offline power		
18	Eye protection Essential:	If using an FM without a darkroom, a pair of well-fitting soft rubber pieces to protect the eyes and block stray light. One antistatic cleaning brush for each microscope. At least one blue filter per microscope (wrapped separately in a box). Optional: A self-standing mirror unit adapted to the space between base and sub-stage condenser, providing bright illumination when used in bright field. Three pin wall adaptor from AC current to be provided for Indian conditions		
19	Operation & maintenance	At least one set of operation, maintenance and service manuals for each microscope, written in English. The manuals to include instructions for: <ul style="list-style-type: none"> - setting up the microscope - routine cleaning and maintenance (including how to change the bulb) - changing the batteries inside the pack - installing and using the mirror (for when the electric lamp is not working) - planning periodic maintenance.
